What Is Life? The Physical Aspect of the Living Cell is a 1944 science book written for the lay reader by physicist Erwin Schrödinger. The book was based on a course of public lectures delivered by Schrödinger in February 1943, under the auspices of the Dublin Institute for Advanced Studies where he was Director of Theoretical Physics, at ...

What Is Life? - Wikipedia

7 Introduction This lecture will introduce quantum mechanics from a more abstract point of view than the first quantum mechanics course that you took

Quantum Mechanics - Imperial College London

A Fractal View of the World Since the time of the ancient Greek philosophers, we have been taught that the geometry of lines and surfaces and solids is the proper description of the world.
